

Enterprise Collaboration and Content-Management Consulting

YADA GmbH is a consulting company with extensive experience in Enterprise Collaboration and Content Management (ECM) technologies. We help our customers, such as Airbus, Adidas, Bayer, Maxdata, Nestlé, OMV, Philip Morris, Siemens and Vodafone, get an edge on the competition.

› **Many years expertise**

YADA consultants have many years expertise in the global deployment, migration, customisation, integration and hosting of ECM software solutions in companies from the most diverse industries. On the basis of the Deployment and Service Management Methodology (eDSMM) developed in-house, we work with our customers to incorporate each level (IT strategy, service and change management, applications and infrastructure) equally to ensure the result is a fully integrated customer solution from a single technological approach.

› **Product development**

In addition to these services, YADA designs and develops its own products such as eRoom | offlineExplorer, Room | Lifecycle Management, eRoom | Report-Engine, etc., to give its custo-

mers more benefits from using ECM solutions. YADA currently provides customer support from its offices in Germany, Austria, Switzerland and the USA.

› **EMC | Documentum Select Services Team Partner (SST Partner)**

YADA was able to gain extensive expertise as a long-standing EMC Content Management Velocity Partner, and, since March 2004, has been a member of a select circle of highly qualified EMC Elite Partners awarded EMC | Documentum Select Services Team Partner (SST Partner) status. This is the highest honour bestowed on any EMC consultancy, and represents special recognition of the successful work of our company over the past few years. YADA is now one of the preferred partners for global deployments of EMC software solutions and high availability virtual infrastructures.
